

CORAYVAC™

ROBERTS GORDON®

CRV 4-40 REPLACEMENT BURNER

Make your old CORAYVAC® system better than ever and revitalize the system with our NEW CORAYVAC® 4-40 replacement burner!

**DROP-IN
REPLACEMENT
AVAILABLE
JULY 1st**

The heat exchanger of the CORAYVAC® 4-40 systems were 3" schedule 40 pipe. Our current CORAYVAC® B-series burner is designed for 4" pipe previously making replacing a 4-40 burner impossible. We have developed a special, patent pending, adapter that elevates the burner to the optimum position for a perfect fit to the old CORAYVAC® 4-40 cast-iron combustion chamber.

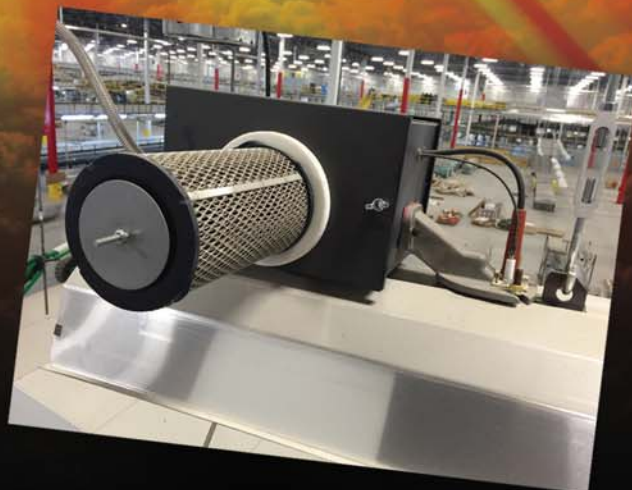

THE PROMOTION

ROBERTS GORDON® will offer a 10% discount on qualifying orders* for CORAYVAC® 4-40 replacement burners purchased between 7/1/18 and 7/31/18. Do not hesitate, take advantage of this special one-time offer today!

* Minimum purchase of 25 CORAYVAC® 4-40 replacement burners for promotion to be valid.

THE BENEFITS

- The CORAYVAC® 4-40 replacement burner comes with an industry leading 3-year warranty.
- A direct replacement makes swapping out the old for the new quick and easy.
- Modern CORAYVAC® B-series burner increases the efficiency and comfort of the old 4-40 system.
- ROBERTS GORDON® provides the user flexibility by only needing to replace non-operating burners within the CORAYVAC® system. Also, if the user chooses to replace the entire CORAYVAC® system at a later date, replacement burners may be reused.
